Excision/Alteration: Yes.

Reason(s) for Excision:

Four excisions are required to remove sequences which show a woman emitting copious fluid from her genitals, presumably urine, in a sexual context. While the scenes appear to be ostensibly presented as female ejaculation, most observers would view the conduct as urination. By presenting these sequences a sexually arousing and entertaining for the viewer the video recording tends to promote and support the use of urine in association with sexual conduct.
